

**COOK'S CLUB**  
NEW GENERATION HOTELS

## COOK'S CLUB EL GOUNA

Cook's Club El Gouna is an innovative hotel that has been designed to offer a bold concept designed for a new generation of travelers. Established as a social space where guests can chill out by the pool while they revel in the resident DJ's tunes all day long, the hotel brings a part of the North Coast lifestyle to the Red Sea in an adult's only (16+) setting. With a central location in walking distance to Downtown, guests can experience the vibrant town's myriad of activities as well as the famed El Gouna nightlife within a stone's throw.

## ELEGANT BEDOUIN INSPIRATION

Tapping into simplistic living with a touch of modernity, Cook's Club welcomes guests into its elegant aesthetic with its dark grey tones that are perfectly contrasted by its Bedouin-inspired seating, hanging lanterns and bamboo furniture. To create an elevated experience, Cook's Club reinvents the use of technology by applying an eWallet system, which serves as your room key or your balance card which you can spend or redeem cash from.

## TIME TO SOCIALIZE

Acting as the main social hub, the pool deck overlooks the flowing waters of the private saltwater lagoon, offering guests the perfect hideaway amidst a welcoming community.

Shuttle boat is available only walking distance from the hotel from our sister hotel Sultan Bey to transfer the guests to the open sea, where sport enthusiasts and day dreamers can enjoy their time at Zeytouna Island. Sun beds, shade umbrellas, fresh towel service, beach sports, a restaurant and a beach bar are available on site.

Guests can also enjoy the hotel's open air wooden gym overlooking the lagoon beach.
